PROFESSIONAL SUMMARY

UX/UI Designer with 4+ years of experience across freelance and agency environments, delivering end-to-end interface design for web and mobile products — from user research, journey mapping, and wireframing through high-fidelity UI, prototyping, and design systems. Hands-on front-end skills (HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS) enable direct design-to-code delivery and close collaboration with engineering. Certified in UX design (Google) and AI for Designers (IxDF, 2026), with a working practice in WCAG accessibility and inclusive design.

SKILLS

UX & Research: User Research, Usability Testing, Journey Mapping, Personas, Competitive Analysis, Information Architecture

UI & Design: Wireframing, Prototyping, Interaction Design, Visual Design, Design Systems, Responsive Design

Accessibility: WCAG 2.1 Compliance, Color Contrast Standards, Inclusive Design, Color-Blind-Safe Palettes

Design Tools: Figma, Adobe XD, Sketch, Adobe Illustrator, Adobe Photoshop

Front-End Development: HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, Git, GitHub, MySQL

AI in Design: AI-assisted research synthesis, ideation, copy exploration, and accessibility audits

PROFESSIONAL EXPERIENCE

Independent UX/UI Designer

Freelance, Remote | April 2025 – Present

- Design and publish end-to-end UX/UI case studies covering user research, user flows, wireframes, high-fidelity UI, and interactive prototypes in Figma and Adobe XD; 8 case studies published on Behance.
- Designed an enterprise sales-operations dashboard, defining information architecture, data-visualization patterns, and role-based views for complex operational workflows.
- Built a reusable design system with tokenized color, typography, and component libraries to keep multi-screen products consistent and accelerate developer handoff.
- Created Visionplus, an accessibility-first product concept for color-blind users, applying WCAG contrast standards and inclusive-design principles.
- Designed and hand-coded a personal portfolio site (medolinshajeena.design) featuring a dynamic Material-You-style color system with runtime WCAG AA contrast verification; source code public on GitHub.
- Apply AI tools to accelerate research synthesis, ideation, and copy exploration, with human judgment on all design decisions (IxDF AI for Designers certified, 2026).

UX/UI Designer

Ess Jay Designs, Full-Time | March 2022 – January 2024

- Owned UX and UI across responsive web projects: user research, journey mapping, wireframing, prototyping, and final visual design.
- Bridged design and engineering by delivering design specifications and production-ready front-end code (HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS) via Git/GitHub, reducing design-to-development rework.
- Ran usability and accessibility reviews on releases to ensure interfaces were functional, inclusive, and consistent with brand identity.

Freelance Creative Designer

Independent Clients | January 2018 – February 2019

- Delivered branding and interface design for small-business clients, from wireframes and prototypes to responsive layouts built to each client's goals and budget.

CERTIFICATIONS

Google UI/UX Design Professional Certificate | AI for Designers — Interaction Design Foundation (IxDF), 2026

IxDF Member — Interaction Design Foundation | McKinsey Forward Program Certificate — McKinsey & Company
